**Subject:** Gold King Release & DOE - UMTRA

All – Just got off the phone with April Gil, a manager in the Legacy Mining unit in the DOE Grand Junction Office. April reached out because DOE has responsibility for several UMTRA sites along the Animas River in Durango and the San Juan River in Shiprock, NM. They do groundwater monitoring in Durango and operate a “pump & treat” at their facility in Shiprock.

They have offered any assistance that they can provide as well as just coordinating on their own sampling as it may relate to EPA’s response action. They are available to answer questions that may arise regarding their monitoring programs .

A Site Manager in the DOE Grand Junction office that is responsible for DOE’s Durango facility just happens to be in Durango this Wednesday and could possibly be available to meet if you wish. Her name is Jalena Dayvault.

April and Jalena’s phone information is available as follows:

• □□□□□□□□ April Gil – 970-248-6020

• □□□□□□□□ Jalena Dayvault – 970-248-6016      Cell: Personal Phone/Ex. 6

Steve Way and Joyel Dhieux are both EPA On-Scene Coordinator's (OSC) on-site. Their cell phone #s are as follows:

- [redacted] Steve Way – [redacted] Personal Phone/Ex. 6
- [redacted] Joyel Dhieux – [redacted] Personal Phone/Ex. 6

If there is anything else that I can do to assist, please do not hesitate to ask.

Paula Schmittiel
